Curtain Track System 4100

Conforming to HTM66, 4100 series offers a comprehensive range of accessories to suit all fixing possibilities. Elegant in design and function 4100 is suitable for use with up-lighters for improved ambient hospital ward lighting. Synthetic wall and ceiling fitting allow the track to comply with the European NEN-3134 standard for special care rooms requiring anti-static facility.

Standard Colours: White RAL 9010, Natural.

Specification

This system can also be mounted with anti-ligature load release components, to provide a controlled system collapse.

NEN-3134: Isolated fixing in S3 (anti-static) rooms. Ceiling fixing with suspension hung (using synthetic ceiling stud), wall fixing with plexiglass wall bracket and synthetic wall support. An earth cable needs to be connected.

INTEGRAL MESH

Integral mesh construction provides continuity of design with life-long code compliance.

No puckering, shrinking or weakness with our unique one piece construction.

Four inch fabric header triple folds to reinforce grommets and ensure superior strength.

Integral mesh fabric, 102" wide, requires no repeat or seaming, which translates into savings.

Integral mesh retains its shape through frequent laundering; always hangs and stacks beautifully.
